COMPANY

Godfrey & Wing is a global provider of engineered solutions for vacuum casting impregnation and surface preparation products and services. Our materials, equipment and services are an integral part of almost all aircraft and land vehicle systems, allowing them to operate reliably and trouble free on a daily basis. Founded in 1948, Godfrey & Wing, Inc. is the industry leader, supplying impregnation equipment, sealant and services to the aerospace and automotive industries, as well as foundries, forgers, die casters and other major manufacturers around the world.

Our Company philosophy is a simple one: listen to our customers' needs and expectations, then develop and implement engineered and economic solutions to meet and exceed their requirements. This philosophy, and our employees' commitment to excellence, has fueled Godfrey & Wing's growth and built our reputation for innovation, quality and service.

We achieve our objectives through a dedicated Team who are focused on making a difference; not only in how we do business, but in how we can contribute to our customer's profitability. Their commitment to quality is reflected in our **ISO/TS 16949 registration** and a continuous effort to improve our products, equipment and services.

With multiple facilities and partners across North America and the World, Godfrey & Wing can deliver solutions and services to any customer, regardless of location.
